

Electrolux S-Bag® Classic Long Performance Value Pack, 12 Bags

Model: 900168824

Manufacturer: AEG

EAN: 7319599031788

Product Code: 1313897

R1,248

The unique features of the s-bag® Classic Long Performance are:

Long lasting performance: s-bag® Classic Long Performance lasts 50% longer than traditional vacuum cleaner paper bags.

60% more suction power: the resistant synthetic material of s-bag® Classic Long Performance ensures optimum air flow and gives your vacuum cleaner constant suction power as the dust bag fills up.

High filtration capacity: the synthetic material of this vacuum bag filters most of the up to 99% of particles as small as 1 micron (15 times smaller than the diameter of a human hair). It filters the air

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

40% more efficiently than a normal paper bag and helps you get rid of airborne particles such as allergens and some bacteria.

Powerflow™ s-bag® is designed with a special folding that gives it more capacity vs. a flat bag. Powerflow makes the bag flexible and easier to fit in the vacuum cleaner.

Improved closing system – durable and hygienic: The closing system has been re-designed, and made more rigid by using stronger material and a new sealing technology. This to ensure the s-bag® closes every time and doesn't break or leak. This vacuum bag is easy to fit in the cleaner, and hygienic as the bag automatically seals when removed, preventing any spillage and making bag changes quick and clean.

TÜV certified: the TÜV Rheinland Group has independently tested and awarded certification of performance of the s-bag® Classic Long Performance. You can find more information on www.tuv.com.

s-bag® is also available in different materials to fit your needs and to optimise your vacuum cleaner performance: Anti-Odour, Anti-Allergy and Ultra Long Performance.

For optimum performance, bags should be changed regularly and filters should be changed with every 4th vacuum bag. All filters should be replaced at least twice a year or when they become visibly soiled. The use of non-genuine s-bag® vacuum bags may adversely affect the performance of your vacuum cleaner.

This pack includes 12 s-bag® Classic Long Performance vacuum cleaner synthetic bags.
