

Canon EF-S 24mm f/2.8 STM Lens

Model: 9522B005

Manufacturer: CANON

EAN: 4549292010220

Product Code: 1334486

R5,178

A highly portable lens in a slim pancake design, ideal for travel and street photography. The advanced optical design creates approximately the same field of view as a 38mm lens for Full Frame camera, for natural human eye perspective even when shooting with an APS-C sensor. Get as near as 0.16 m to subjects for a close-up view of the world as you explore with stepping motor (STM) focusing technology delivering smooth, quiet focusing when capturing movies and live-action stills. The large f/2.8 maximum aperture allows hand-held low-light shooting and control of depth of field letting you isolate your subject against a soft, blurred background.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
