

Ecovacs Deebot N20E Plus 0.4 L White

Model: YDLX11-31EC

Manufacturer: ECOVACS

EAN: 6970135033935

Product Code: 1336053

R7,838

White automatic vacuum cleaner with an auto-empty station, strong suction, mapping technology, voice control, and a long-lasting battery.

ECOVACS PureCyclone Technology

DEEBOT N20 PLUS revolutionizes cleaning with ECOVACS PureCyclone Technology, boasting a two-stage separation process and multi-cone structural design that ensures 95% dust separation rate, minimal suction loss even after 100 uses, an extended lifespan for the motor and cotton filter, and stable dust collection efficiency, providing users with powerful and long-lasting suction for pristine floors and cleaner air. *This data is based on tests conducted by ECOVACS Laboratories.

The 4-Stage Filtration System

DEEBOT N20 PLUS ensures a clean and healthy home environment with its advanced 4-Stage Filtration System, providing unparalleled air purification and peace of mind for dust-free living.

The Consumable-Free Dust Container

DEEBOT N20 PLUS' consumable-free dust container design promotes sustainable usage, saving costs and reducing environmental impact by eliminating the need for dust bag replacements, while its easy-empty feature and visualized container facilitate hassle-free maintenance and timely disposal of debris.

ZeroTangle Anti-Tangle Technology

DEEBOT N20 PLUS incorporates ZeroTangle Anti-Tangle Technology, featuring a newly designed roller brush with 21° flat and outward-rotating angled bristles, along with dual comb teeth arrays, to effectively prevent hair tangling and ensure efficient cleaning, making it a pet hair nemesis and eliminating the hassle of hair entanglement on the main brush. *The Data is based on the test of ECOVACS laboratory, when drying hairs smaller than 25 cm, the DEEBOT N20 Family works by sweeping, rolling, combing and sucking, and the hair entanglement rate of the brush is 0%.

Powerful Suction

DEEBOT N20 PLUS features 8000Pa powerful suction alongside a 400ml dust bin, ensuring thorough cleaning of floors, carpets, and large areas while minimizing the frequency of emptying, for a hassle-free cleaning experience.

OZMO Mopping System

DEEBOT N20 PLUS uses the OZMO Mopping System to effortlessly scrub away stubborn stains, while its composite material mopping pad locks in dirt and the 220ml water tank ensures continuous wetness, revitalizing your floors with every pass for a luxurious and spotless cleaning experience.

TrueMapping Intelligent Path Planning

DEEBOT N20 PLUS incorporates TrueMapping Intelligent Path Planning, utilizing laser radar scanning for precise navigation, ensuring thorough cleaning with its systematic path coverage, while also providing quick mapping in just 8 minutes and stable map restoration through the ECOVACS HOME App, guaranteeing a comprehensive and reliable cleaning experience.

Voice Control

DEEBOT N20 Family supports voice control for the easier operation, which includes Alexa and Google Assistant.

Reliable Movement

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
