

Teleconverter PGY 2x for iPhone 16 Pro

Model: P-PG-106

Manufacturer: PGYTECH

EAN: 6937452751089

Product Code: 1341165

R2,731

PGYTECH 2× Telephoto Converter for the iPhone 16 Pro

The PGYTECH 2× telephoto converter extends the reach of the iPhone 16 Pro's camera, making it easier to photograph distant subjects. It features an optical system consisting of 5 elements in 3 groups, utilizing extra-low-dispersion glass and high-refractive-index glass. The lens provides 2× magnification, has a minimum focusing distance of 5.22 m, and is 52.48 mm long. The set also includes a lens adapter ring and a carrying case, which make it easy to attach and store the teleconverter.

Included

- 2× telephoto converter
- Lens adapter ring
- Lens case
