for precise decisions in fast-moving games.

VIEW WIDER, FIGHT BETTER

The G274QPF E2 gaming monitor features a WQHD panel that supports resolution up to 2560x1440. This 16:9 panel allows gamers to examine bigger game scenes compared to other traditional FHD panels, and put them ahead of other competitors.

TRUE COLOR

The MSI Gaming Monitor has more gamut coverage compared to general monitors. Gameplay colors and details will look more realistic and refined, to push immersion to its limits.

TRUE COLOR

MSI gaming monitor is equipped with HDR technology that can produce images with more details, wider range of colors, and look more similar to what is seen by the human eye when compared to traditional monitor.

Windows 11 Auto HDR supported.

SMOOTHEN OUT YOUR GAMEPLAY

The MSI Gaming Monitor is built with Adaptive Sync technology to achieve the smooth visuals for your gameplay. Adaptive Sync technology will sync the refresh rate of your monitor with your GPU to eliminate screen tearing or stuttering. The ultra-smooth and lag-free visuals that Adaptive Sync provide will allow you to enjoy the game the way it was meant to be enjoyed.

NIGHT VISION

Whether your entire screen is dark, or just a few portions have heavy shadows. Let the world's first smart black tuner brighten your day by bringing out the fine details in dark areas.

FROM EDGE TO EDGE

With a super narrow bezel, enjoy the best immersion possible in the latest games with a multi-monitor 180 degree setup. Enjoy better continuity between screens while playing games, working, or general computing.

ANTI-FLICKER TECHNOLOGY

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Generic monitor displays normally have a flicker-rate of about 200-times per second, which is unnoticeable to the naked eye, but can cause fatigue over time. MSI Anti-Flicker technology provides a very comfortable viewing experience by reducing the amount of flicker.

178 DEGREES OF WIDE VIEWING ANGLE

By having a large viewing angle, MSI gaming monitors has more leeway for placing your monitor in your setup without giving up the optimal viewing experience. Colors and details will stay sharp at more angles compared to other monitors with less viewing angles.

BLUE LIGHT REDUCTION

MSI monitors are optimized to produce less amount of blue light displayed by the monitor, so that you can game for longer periods of time without eye-fatigue.

TYPE-C DISPLAY

With USB Type-C cable connection, allowing you to power your devices (up to 15W) and effortlessly display by DisplayPort Alt mode.
