The Homedics WhisperPure Mini Air Purifier acts as your very own personal air filtration system. Designed to sit discreetly on your desk, slot into your car cup holder, or fit neatly on a bedside table or kitchen worktop, WhisperPure includes the same technology used in larger air purifiers, in a compact design that fits your personal space. With a 3-in-1 HEPA-Type filter at the core, it captures and removes up to 99.97% of airborne contaminants as small as 0.3 microns* from your surrounding area, helping to reduce hay fever and allergy symptoms, airborne mould spores, and the spread of germs for up to 8 hours. The travel-friendly, cordless design includes a stylish carry strap to easily take your air purifier on the go, with the option to add your favourite essential oils to refresh and revive your space.
