Model: IM016-BBL

Manufacturer: EUHOMY

EAN: 5905156101302

Product Code: 1343501

R2,791

Euhomy IM016 12kg ice cube maker (black)

Enjoy refreshing drinks every day. The Euhomy IM016 can produce up to 2,160 ice cubes in 24 hours – enough to prepare up to 250 servings of cold drinks per day. You can choose between two cube sizes – smaller ones for quick cooling and larger ones that maintain the temperature for longer. What's more, the ice maker produces distinctive bullet-shaped cubes – rounded, smooth, with no sharp edges. They cool drinks quickly and melt slowly. Importantly, ice from the IM016 does not absorb odors or have a taste, as is often the case with ice from the freezer.

Ice cubes ready in 6 minutes

Thanks to the fast production cycle, the first 9 ice cubes are ready in just 6 minutes. This is the perfect solution when you want to cool your drink quickly. What's more, the ice maker is quiet and does not require a permanent connection to water – just fill the tank and press a single button.

Intuitive control panel

The IM016 has been designed for maximum ease of use. Everything is done using a single panel with backlit icons that indicate when water needs to be added, when the container is full, or the operating mode. In addition, you can select the size of the cubes and start the self-cleaning mode with a single click.

Self-cleaning function

Keeping the device clean is extremely easy. Just press a button to start the automatic cleaning cycle – no scrubbing, no disassembling the device. This solution saves time and allows you to always enjoy fresh ice.

Lightweight, energy-efficient, and environmentally friendly

The ice maker weighs only 5.9 kg, so you can easily move it to wherever you need it. It operates quietly and economically – power consumption during ice production is only 0.8 A, and the R600a refrigerant used is environmentally friendly and safe.

Included in the set

- ice cube maker
- ice cube basket
- ice scoop
- ice cube maker handle
- user manual

Manufacturer	Euhomy
Model	IM016
