Product Code: 1343506

R1,940

As a professional tradesperson, you need tools that are easy to use and meet all legal requirements. The practical Bosch Professional VDE mixed hand tools set (7 pieces) contains 2 VDE pliers, 3 VDE screwdrivers, 1 VDE stripping knife, and 1 single-pole phase tester. You can grasp or pull objects like nails, cut wires or fasten and unfasten screws, or dismantle wires, even if you unexpectedly make contact with live parts. All VDE hand tools are very durable thanks to chrome vanadium steel. The slim S2 shafts and robust tips of the screwdrivers ensure fitting accuracy. With the pliers, you need up to 30 % less effort to cut material compared to standard pliers thanks to high-leverage design and sharpened cutting edges. And the stripping knife gives you optimal control while working thanks to ergonomic comfort with the soft grip, thumb rest, and finger hook. VDE screwdrivers and the VDE stripping knife are insulated with Thermoplastic Elastomer (TPE), the VDE pliers are insulated with Thermoplastic Polyurethanes (TPU). All VDE hand tools in this set have been tested up to 10,000 volts and VDE-certified up to 1,000 volts according to DIN EN/IEC 60900. The Bosch Professional single-pole phase tester is certified according to DIN VDE 0680-6. It allows you to determine whether there is an existing current. It detects voltages from AC 100 V - 250 V and there's an integrated glow lamp that alerts you if a current is present. With the VDE hand tools added to our Bosch Professional
