LANBERG patchcord cat.6A FTP LSZH CCA 2m black

Model: PCF6A-10CC-0200-BK

Manufacturer: LANBERG

EAN: 5901969424843

Product Code: 1347222

R561

The Lanberg CAT 6a patch cable is designed to meet the demands of high-speed networking. With a tested frequency of up to 500 MHz, it ensures reliable data transmission for both home and commercial use. The aluminum foil with braid shielding minimizes interference and enhances performance, while its halogen-free jacket contributes to safety in environments where fire concerns are paramount. This cable features stranded construction and Copper-Clad Aluminum (CCA) conductors, providing flexibility and durability in installation and use. Featuring RJ-45 male connectors on both ends, the cable follows the T568B wiring scheme, making it compatible with a variety of network devices. The low smoke zero halogen (LSZH) material is particularly beneficial in confined spaces, reducing harmful emissions in case of fire.
