GODOX ML60II Bi-color LED Video Light

The GODOX ML60II Bi-color is a compact 70 W LED light designed for creators who need portable and high-performance lighting. It weighs just 526 g, offers color temperature adjustment in the range of 2800–6500 K, and ensures accurate color reproduction thanks to CRI 96+ and TLCI 97+ ratings.

Mobility that makes every shot easier

Its compact size and lightweight, ergonomic design allow you to comfortably hold the light in your hand and quickly direct the light exactly where it’s needed. It’s the perfect solution for filming news reports, weddings, vlogs, or content created in small spaces where setting up traditional tripods can be difficult. The included carrying case makes transport easy, so you can always have the entire kit on hand.

Natural Light and Convenient Control

Smooth color temperature adjustment from 2800 to 6500 K allows you to easily match the lighting to ambient light or other light sources on set. High CRI 96+ and TLCI 97+ values ensure natural color reproduction, making it easier to achieve consistent results right during filming and reducing the need for color corrections later on. The lamp’s settings can be adjusted directly on the unit or remotely via the Godox Light app, and 11 built-in lighting effects let you quickly enhance the scene with additional effects without needing extra accessories.

Ready to Work in Any Conditions

The light can be powered from the mains or using external V-Mount or NP-F batteries, making it easy to work in locations without access to an electrical outlet. It also supports the GODOX Mount, making it compatible with a wide range of dedicated light modifiers, allowing you to tailor the lighting to the nature of your project.

Included:

- LED light
- Power cord
- Reflector
- Bracket
- Light head protective cover
- Adapter
- Carrying bag
