Seagate FireCuda Thunderbolt technology 500 GB USB Type-C 3.2 Gen 2 (3.1 Gen 2) Black

Model: STJP500400

Manufacturer: SEAGATE

Product Code: 1387142

R5,123

Boost Your Game. Light Your World.

If less lag and more action is your jam, meet FireCuda Gaming SSD. It’s a portable USB-C solid state drive that accelerates booting, loading, and saving with cutting-edge USB 3.2 Gen 2x2 technology and levels up your atmosphere with customisable RGB LED lights.

Speed Up With an NVMe SSD Boosted by USB 3.2 Speed

Everything you do — installing games, booting up, loading levels, auto saving — FireCuda Gaming SSD helps you do it faster. And that’s because it uses NVMe SSD performance to optimise USB 3.2

Gen 2x2 technology. The result? Blazing-fast speeds of up to 2,000 MB/s for an incredibly smooth gaming experience.

Set the Vibe With Customisable RGB LEDs

In the world of PC gaming, atmosphere matters. And now you can take it to new levels with FireCuda Gaming SSD’s customisable RGB LED lights. Using the included Seagate Toolkit software suite, explore a range of colours and light patterns to complement your PC rig — or even sync them to match the RGB lighting of FireCuda Gaming Dock.

A USB-C External SSD You Can Take Anywhere

FireCuda Gaming SSD’s compact, lightweight, industrial design complements premium gaming rigs while its sturdy aluminium enclosure offers cooling and heat dissipation for extended reliability. Plus, it’s USB-powered, so no external power supply needed.

Need a Mighty Storage Hub? Meet FireCuda Gaming Dock.
If centralised docking power is what you’re looking for, then FireCuda Gaming Dock is where it’s at. This 4 TB gaming storage hub connects your entire battlestation via Thunderbolt 3 and includes an upgradeable NVMe slot for a FireCuda NVMe SSD so that you can have the best of both worlds — massive capacity and turbo-charged speeds. It even includes customisable LED lights that you can sync up with FireCuda Gaming SSD for a fully integrated battle station.
