Saitek and GIANTS Software teamed up to create this bumper crop of immersive gear made to enhance the excitement of reaping the rewards of your virtual farm.
The Farm Sim bundle is the latest member of Saitek's impressive stable of specialized gear. Standard keyboard controls or wheels designed for a totally different genre of games may get the job done, but our equipment does the job right. Care for your farm with these realistic tools to gain a deep-rooted sense of immersion and enjoyment, all while driving vehicles and operating attachments with a finer degree of control.

- Now updated with engineering enhancements that address feedback from the community, the Heavy Equipment Bundle is ready for the rigors of life on the farm.

- The 900-degree rotation steering wheel offers the realistic rate of rotation for a tractor steering wheel and highly accurate control, ensuring your crops are harvested efficiently.
- Integrated dual analogue sticks mean you don't need to switch between different controllers for different tasks – whether driving or on foot, you have full control from the steering wheel.
- Even complex logging machines are rendered simple to operate thanks to the side panel loader control stick with its 6 axes.
- Set-and-forget cruise control speed dial and 37 programmable buttons give you the flexibility to control your entire farm from just the one controller.
- The durable clamp, featuring Saitek’s proven screw-thread adjustment, ensures your controller stays locked in place on your desk.
