GREEN CELL UPS PowerProof 360W/650VA modified sine wave

Model: UPSLM360

Manufacturer: GREEN CELL

EAN: 5904326375581

Product Code: 1398745

R1,602

The Green Cell PowerProof is a reliable backup power supply designed to keep your devices running smoothly during power outages. With a power capacity of 1000 VA and output of 600 W, this line interactive UPS supports a variety of electronics while providing excellent surge protection. The integrated LCD display offers clear insights into the system's status, ensuring users remain informed about power conditions at all times.

This UPS features multiple output connectors, including two power CEE 7/3 connectors and two IEC connectors, facilitating the connection of various devices. The PowerProof includes essential protection mechanisms such as overvoltage, short-circuit, and thermal protection, ensuring safe operation and longevity. With a compact external form factor and a recharge time of 6 hours, this device is an essential companion for both home and office environments.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
