Product Code: 1402468

R1,751

OneOdio A1 Pro Wireless Headphones (Black)

The OneOdio A1 Pro are wireless over-ear headphones featuring hybrid ANC noise cancellation down to -38 dB, large 40 mm drivers, and modern Bluetooth 6.0 connectivity, which ensures a stable connection and very low latency of 0.089 seconds. They offer up to 70 hours of battery life (without ANC), and fast charging provides 1 hour of playback in just about 5 minutes. It's a combination of high-quality sound, performance, and features designed for both everyday listening and gaming.

Focus on the sound with hybrid ANC

The Hybrid Active Noise Cancelling technology effectively reduces external noise by up to -38 dB, allowing you to fully focus on music, work, or podcasts. Transparency Mode, on the other hand, lets you quickly switch to hearing outside sounds without removing the headphones, so you can stay

aware of your surroundings when you need to.

Powerful sound and detail

The headphones are equipped with 40mm dynamic drivers that deliver deep, punchy bass and clear, detailed highs. This makes music, movies, and games more dynamic and realistic, with a well-balanced and pleasant sound.

Stable connection and gaming mode

Bluetooth 6.0 ensures fast pairing and stable transmission—forget about signal issues. A multipoint feature is also available, allowing you to connect to two devices simultaneously and switch between them automatically. This lets you easily answer a phone call and then return to watching a movie on your laptop. Additionally, Low Latency Gaming Mode reduces latency to approximately 0.089 seconds, resulting in perfect synchronization of video and audio. This solution works great during gameplay and beyond!

Interrupt-Free Calls

Thanks to AI ENC technology, the built-in microphones effectively isolate your voice and reduce ambient noise. As a result, calls are clear and natural—even in noisy environments—which works well for both work and everyday phone conversations.

Battery life for days of use

The impressive battery life reaches up to 70 hours without ANC or 40 hours with noise cancellation enabled (in both cases at 50% volume). So you can use the headphones for days on end, whether at the office, at home, or while traveling. And when the battery runs low, fast charging via USB-C provides up to 1 hour of playback after just 5 minutes!

For your comfort

The lightweight design, breathable memory foam, and adjustable headband ensure comfort even during hours of use. Plus, the foldable design and swiveling ear cups make transport and storage a

breeze. You can easily take the headphones to work, on the train, or on vacation!

Intuitive button controls

The headphones offer convenient button controls that let you, among other things, skip tracks, adjust the volume, answer or reject calls, and manage playback. All the most important functions are right at your fingertips!

Included

- Headphones
- USB-C charging cable
- Manual
