R736

The Lanberg rack feet offer a robust solution for securing equipment in a rack mount setup. With an M10 thread, these feet are designed to provide stability and support for various devices. Made from durable metal and ABS plastic, they can withstand a maximum load weight of 60 kg, ensuring reliable performance in a variety of environments. These rack feet are essential for creating an organized and safe workspace by helping to level and support your equipment.

Simple to install, the M10 thread allows for easy attachment to most racks, making these feet a practical choice for any setup. The combination of high-quality materials ensures durability, while their load capacity makes them suitable for both light and heavy equipment. Invest in the Lanberg rack feet to enhance your rack management and provide a solid foundation for your devices.
