EXPERT N880 Fleece for Long Life Finishing Metal

High quality metalwork requires a high quality finish, and for this you need a good, consistent abrasive. The EXPERT N880 is not only good when it's fresh out of the packet – it stays good over a long lifespan, delivering a consistent finish.

Whether you are finishing a precision metal component, cleaning a work piece or blending in a hard to reach surface, the EXPERT N880 is the best choice in the long run.
