GENESIS Irid 505 ARGB Midi Tower White

Model: NPC-1872

Manufacturer: GENESIS

EAN: 5901969432831

Product Code: 1404226

R2,064

ORIGINAL DESIGN WITH ARGB

Irid 505 ARGB has a perforated front, and the side panel is made of transparent tempered glass, which allows you to keep an eye on the working components. The phenomenal whiteness of the structure combined with the impressive ARGB backlight will make the housing the focal point of your stand and give it a unique character!

SUPPORT FOR FIVE SSDS

To give you complete freedom to manage your data with fast access, the Irid 505 ARGB gives you the ability to attach up to five SSDs. In addition to this, there is space to mount two HDDs or another two SSDs in their place.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

FUNCTIONAL PANEL WITH USB 3.0

For maximum convenience and intuitive operation, the front of the case has been equipped with two USB 3.0 connectors, two USB 2.0 connectors and two HD Audio Jacks.

PERFECT ORGANIZATION

The Irid 505 ARGB housing enables perfect cabling organization. Numerous cable entries equipped with rubber covers and a large amount of space behind the motherboard tray make it quick and easy to arrange the cables, letting you create an aesthetically pleasing appearance of the whole package.

FOUR FANS INCLUDED

The case is equipped with four robust and very quiet 120 mm ARGB fans. In addition, the Irid 505 ARGB allows to mount up to two additional fans, including 140 mm at the front and top. Thanks to this, your case can have up to six fans in it!

THREE DUST FILTERS

The sterile conditions inside the housing are ensured by three dust filters, which are placed on the top, bottom, and front. As a result, you don't have to worry about too much dust around the components anymore.

AESTHETIC EXPANSION SLOTS

Expansion sockets have screw-on caps and can therefore be re-installed. Open only what is needed and cover the sockets that are empty. In Irid 505 ARGB everything is always supposed to look neat and delightful.

MOUNTING "SLOT IN" DISKS

The use of simple "slot-in" technology allows you to organize HDDs and SSDs without having to reuse tools.
