Freewell Osmo Pocket Standard Day Filter Set (4 pcs.)

The Freewell Standard Day Filter Set was designed for users of the DJI Osmo Pocket 4P who want to achieve a professional look in their footage under various lighting conditions. The set includes four filters—ND8, ND16, ND32, and ND64—which allow you to precisely control the amount of light reaching the lens when filming during the day. This makes it easier to maintain optimal exposure settings even in bright sunlight.

Smoother Shots and a Cinematic Effect

Neutral density filters extend the shutter speed, allowing you to achieve natural motion blur and give your footage a more cinematic look. This is an excellent solution for capturing dynamic scenes, walks, or landscape shots. The Quick Swap system ensures fast and secure attachment, making filter

changes efficient even while working in the field.

Lightweight Design Without Compromise

Freewell filters are designed specifically for the DJI Osmo Pocket 4P. Their lightweight construction does not interfere with the gimbal’s operation, ensuring smooth and stable footage when shooting handheld. This is a practical set for creators who expect high-quality images, ease of use, and reliable performance in everyday applications.
