In a fast-paced world, we help you simplify tech management. From a tablet compartment, removeable tech accessory pouch, and multiple stash pockets - including one for your own power bank and tracking accessory - we’ve got you covered. The HeritageLuxe Backpack is intuitively organized so you can quickly find your everyday accessories.

Adaptable Storage

Designed to adjust with your storage needs, the main compartment divides using the innovative FlexDivider, allowing you to separate and store delicate items such as a lunch or camera equipment and conveniently access them from the bottom of the bag.

Travel-Inspired

Because work doesn't stop while in transit, this bag is keenly designed for the always-on, always on-the-go professional. From a patented retractable USB-C connector to keep you discreetly and seamlessly plugged into portable power (power bank not included), to a retractable luggage tag holder that perfectly blends into the bag, to a pass-through trolley strap so you can rest on your carry-on for easier portability - the bag helps ensure a simplified journey.

Smart Protection

Protection is in the Targus DNA. Expertly crafted for any VIP - this bag comes stacked with impressive protection and security features. Safeguard your laptop with our high-impact patent-pending SafePort® SafeSling protection. And protect your cards and personal identification from unauthorized scans with the RFID-blocking stash pocket on the back.

Designed for Executives with Executives

Using insights and experiences from real executives, we've incorporated the features and finishes they desired and needed most - details that stand up to the daily rigors and the ever-changing needs of a busy leader. By incorporating premium materials, including leather accents and sophisticated finishes, this bag boasts an elevated style that’s made to last a lifetime - as evident by its limited lifetime warranty.
