Choose your favourite blend or pod and brew your own espresso with a perfect crema. Brew a range of milk based beverages with the stainless steel Cappuccino system. Removable drip tray provides extra space for your mug, up to 110mm. Compact, modern design with easy grip finish.

The 15 bar pressure feature creates a delicious espresso with a rich aroma and an enticing nut coloured creamy top.

With the flexible milk frother, you can manually mix steam and milk to create the perfect density of froth for your favourite milk beverages.

The boiler is made from stainless steel for high durability, ensuring excellent in-cup results for a long period of time.
