High technology made simpler thanks to a wide screen to have all settings at a glance. Tailored around your needs, easy, intuitive and fully detailed, it guides you through personalization, brewing and cleaning functions.

4 USER PROFILES

4 different user profiles to memorize all beverages, personalised as you prefer. At every next use, you'll easily find them just as you programmed.

CLASSIC PANNARELLO

The right tool to unleash your inner barista. It dispenses steam to froth milk and try latte art, or water for teas and infusions.

100% CERAMIC ADJUSTABLE GRINDERS

The resistant 100% ceramic grinders extract the purest essence from coffee beans, preventing overheating and burning. This material guarantees long-lasting performances, silence and the best in-cup result. Select among 10 options to customise your espresso, from the finest grind for a strong taste, to the coarsest for a lighter coffee.

OPTIAROMA

This feature gives you the unique possibility to adjust the aroma intensity and create tailored coffee-based drinks by choosing the quantity of ground coffee per cup among 5 selections.

PRE-BREWING

Unique body and taste for every espresso thanks to the pre-brewing that implies few seconds of pause between the first shower of hot water and the actual brewing.

REMOVABLE BREW GROUP

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The heart of the machine, it doses and tamps the right amount of ground coffee for all your espressos.

It allows a thorough cleaning of the machine as it is removable and can be washed under the tap and reinserted easily at its place.

GROUND COFFEE OPTION

In addition to the coffee beans option, an easy solution to brew different ground coffee blends, included decaffeinated.

QUICK HEAT BOILER

The Quick Heat boiler ensures hot beverages from the first cup without the waiting. Its secret lies in its body made in light aluminum and stainless steel, which can reach hot temperatures fast.
