The Genesis Nitro 890 G2 is a chair that will allow you to maintain a correct and, above all, comfortable position during gameplay. The backrest is enriched with built-in lumbar adjustment, which you can adjust to your body structure. The chair is also equipped with a soft pillow that will bring relief even when sitting for long periods of time. In addition, the backrest and seat are wide, so the Genesis Nitro 890 G2 will prove ideal for gamers between 170 and 200 cm tall.

EVEN BETTER, NEW BASE

We know how important durability is. That's why we've equipped the Genesis Nitro 890 G2 with an all-new 5-arm, all-metal base. It is much more durable than its nylon counterparts, ensuring trouble-free use of the chair for years. Thanks to it, you can also count on the chair's greater stability regardless of its size. The 60-millimeter CareGlide™ coated wheels will also help you move it. They ensure smooth movement on any surface, all without the risk of scratching it.

CUSTOMIZE WHATEVER YOU WANT

Three-way adjustable armrests allow for a comfortable set-up, the height adjustment will help you adjust the chair correctly to your height. After a challenging gameplay you will be able to relax thanks to the rocking function - multiblock. Give yourself a moment of relaxation, and before the next fight, lock the backrest in desired position and enjoy unwavering stability.

SOFTLY, AS NEVER

The chair is made of abrasion-resistant fabric and high-quality eco leather ensuring excellent durability and adequate ventilation in all conditions. The use of elegant high-quality materials guarantees that the chair will continue to look impeccable over the years.
