THE PERFECT HOME FOR YOUR PC

The front of the case is perforated, while the side panel is made of tempered glass with an aesthetic black print. As many as 4 magically backlit ARGB fans will turn your box into a fine piece of art. Irid 503 ARGB impresses not only with its functionality, but also an unusual range of visual impressions. We want you to be able to spill an impressive aura on the room, which will mark your "I" - Irid 503 ARGB makes it possible.

4 ARGB FANS INCLUDED

If want to be able to rest assured that your PC is running optimally, its hardware components must have the temperature conditions they need. Your mutual comfort is provided by four high-quality, very quiet 120 mm fans with ARGB lighting. If need be, the case can fit more fans - including 140mm!

FANS WITH 3-PIN ARGB CONTROLLER

Every fan included with the Irid 503 ARGB as well as the controller itself have 3-pin 5V ARGB plugs, allowing you to connect the controller to a compatible* motherboard and control the backlight effects. The controller, when not connected to the motherboard, allows for independent backlight adjustment, and is additionally equipped with a 4-pin PWM plug, allowing for fan speed adjustment depending on the system load.

* The ARGB system (5V 3-PIN) is not the same as RGB (12V 4-PIN). Make sure what type of backlighting your disc supports.

TWO TYPES OF MOTHERBOARD? - NO PROBLEM!

The case is compatible with 2 motherboard size variants. You can easily fit a Mini-ITX and Micro-ATX inside without worrying about finding matching components.

FITS SSD'S

To offer you complete freedom of quick-access data management, Irid 503 ARGB allows you to install up to three SSDs. In addition, you have enough space for two standard HDDs.

A CASE WHERE CABLES DISAPPEAR

Genesis Irid 503 ARGB has ample space behind the motherboard tray and many rubber grommets, making cable management a breeze and ensuring a great appearance from the outside.

EQUIP IT WITH LIQUID COOLING UP TO 240 MM

We bend the laws of physics to offer this much in such a small case. If needed, you can install a liquid cooler up to 240 mm! Irid 503 ARGB offers complete freedom when it comes to hardware and

a wide range of cooling options.

FUNCTIONAL USB 3.0 PANEL

The top of the case comes with as many as three USB ports, including one USB 3.0 port. We have conveniently placed two jacks close to you, so that you can easily plug in your headphones and microphone. All this in addition to a button controlling the phenomenal ARGB lighting, so that you can set it to as you like it.

ALWAYS-STYLISH EXTENSION PORTS

The plugs of the expansion sockets are screwed on, not broken off, allowing them to be reassembled if necessary. Just open what you need and turn it off when the socket is empty.

3 DUST FILTERS

The case is equipped with three dust filters, which keep the interior perfectly clean. Genesis Irid 503 ARGB has been designed with attention to every detail, ensuring long-term user satisfaction.
