R4,341

The CORSAIR iCUE LINK 3500X LX-R RGB is a functional mid-tower chassis designed for optimal airflow and aesthetics. Featuring a tempered glass side panel and a glass front panel, this case allows for a view of your internal components while keeping them protected. The included bottom dust filter helps maintain cleanliness, ensuring long-lasting performance. With ample space for cable routing, this case promotes organized builds. The ability to support a back-connect motherboard provides versatility for your setup. Cooling is managed through a fan system that includes multiple locations for installation, allowing for a configuration that suits a variety of needs. Three 120 mm fans come included, with options for further expansion to accommodate up to three additional fans or multiple radiator sizes. With support for different form factors such as ATX, microATX, Mini-ITX, and Extended ATX, the case meets various requirements. It comes equipped with handy front panel connectors, making your setup easily accessible and user-friendly.
