With the R-Go double monitor arm, you can easily and quickly position your monitor at eye level. In addition, you can tilt and swivel the screen as required. The Caparo monitor arm even has an integrated gas spring, allowing you to easily adjust the screen's height and depth with one hand. Ideal for flexible workplaces! Thanks to its modular character, you can easily expand the monitor

arm as required with a document holder, laptop holder, Smartbar or an additional arm. The monitor

arm can be attached from above the worktop. This allows you to work in an upright posture even during installation! In addition, you don't need any tools for installation. The R-Go monitor arms are designed to be CO2 neutral. The CO2 emissions released when manufacturing a monitor arm are compensated by planting trees. The R-Go monitor arms are designed in the Netherlands and feature patented SMART functions, such as a rotation stop for each moving part. This SMART STOP prevents the monitor arm from colliding with an (acoustic) wall.
