USB A Hub | SuperSpeed USB 5Gbps (USB 3.2 Gen 1) | Built-in 11" Host Cable

This 4 Port USB Hub enables you to connect four SuperSpeed USB 3.2 Gen 1 (5 Gbps) peripherals to your USB-A laptop or computer, an ideal solution for adding USB ports to a device that has limited USB ports available. It features a wrap-around cable manager, allowing you to tuck away the built-in cable for easy portability.

Expands the Connectivity of Your Computer

With this USB hub you can connect four USB-A devices to a single USB-A port on your host device. The USB Type-A hub shares up to 4.5W (5V/900mA) of power between connected devices, making it an ideal solution for connecting SSD/thumb drives, data storage, keyboards, mice, web cams and USB headsets. The USB hub is backward compatible with USB 2.0 (480 Mbps).

Highly Portable and Sleek

Featuring a durable plastic housing that's lightweight, and a sleek wrap-around cable management system, this USB hub is the perfect travel companion for your laptop. Its small footprint ensures it will store easily in your laptop bag, and the wrap-around cable manager prevents tangles, ensuring easy accessibility. The USB hub is bus powered so there's no bulky external power adapter.

Wide Device Compatibility

The USB hub is OS independent ensuring support on a wide range of platforms including Windows, macOS, Linux, iPadOS, Chrome OS and Android. The built-in host cable is 11 in. (28 cm) long, providing enough length to easily integrate into any workstation, reaching your host device even
