R3,011

Share a mouse, keyboard, and 4K 60Hz DisplayPort display between two USB-C enabled laptops, using this KVM Switch with built-in cables

This USB Type-C KVM Switch enables users to switch between two USB-C laptops, sharing a 4K 60Hz DisplayPort monitor, keyboard, mouse, and audio input/output devices.

Hassle-Free Setup

The KVM switch is bus powered and features built-in USB-C and 3.5mm Audio Input/Output cables. This ensures compatibility and performance between the KVM switch, monitor, and peripherals - without the need to select and purchase the cables required for those connections.

Compatibility

The 2-port KVM switch is compatible with all operating systems, including Windows, macOS, ChromeOS, and Linux. The KVM works with all hardware platforms including Intel, AMD, and Apple M1/M2.

Intuitive Control

The KVM switch offers two options to switch between hosts - a remote push-button or hotkey commands, using the downloadable software. The remote push button includes a 1.5m cable for optimal placement in the setup. Independent audio switching can be achieved through the software, utilizing keyboard shortcuts (i.e., hotkeys), ensuring uninterrupted audio when switching between host devices.
