Screen smoothly and safely at the right height

A RISE 4105 electric display and TV lift floor stand is suitable for displays up to 86" and max. 120 kg. This lift is perfect for large interactive screens and lifts the screen to the desired height safely and easily at a speed of 50 mm/s. This lift also has a height adjustment of 700 mm and is therefore extremely suitable for a school or business environment. Placing the lift on a flat floor offers the possibility to place the screen in any desired location.

The top-down mounting ensures quick installation. The warranty is 5 years.

Safety comes first

Vogel's display lifts meet the highest international safety standards TÜV, CE, and GS. In addition, this trolley also meets the ADA guidelines, so that people who are less mobile can also easily move the display. operate

Although programmed for 86" screens, these electric lift systems can be used for most 98" displays. Sometimes a minor software adjustment (height adjustment) may be necessary (see user manual).

Thoughtful design for easy use and installation

With the stylish and flat floor plate of this product, the RISE electric display lift is accessible and easy to place in any school, meeting room, lobby or boardroom. The sturdy column base can easily lift any brand of interactive flat panel display up to 98" with a max weight of 120 kg. Cable management (CIS®) ensures easy concealment of cabling when mounting.

Anti collision on the display lifts prevents damage to the screen and system, in case of obstruction the screen moves back in the opposite direction so there can be no clamping danger. The sturdy 100 mm castors allow the lift to be moved easily on any surface. .

Various RISE accessories

All RISE motorized display lifts can be expanded with accessories such as whiteboard sets, laptop tray, video conferencing camera tray or sound bar mount or a hidden storage unit.

RISE to the occasion

A range of motorized display lifts that allow you to intuitively and safely adjust a screen to the right position and height. Always doing so in a safe way due to the durable and stylish design that meets the highest international safety standards. Easy and quick to assemble. This is how Vogel's RISE display lifts rise above.

Vogel's. For Sure.
