Add seven USB 3.2 Gen 1 (5Gbps) ports to your laptop / desktop computer, using this portable USB hub

This USB Hub adds seven USB-A 3.2 Gen 1 (5Gbps) ports to a USB-A enabled desktop or laptop computer. The USB Hub connects to a USB-A port on a computer, using the built-in 38.6in (98cm) host cable. The USB hub is backward compatible with USB 2.0 (480Mbps) devices, ensuring support for a wide range of modern and legacy USB peripherals (e.g., thumb drives, external HDDs/SSDs, HD cameras, mice, keyboards, webcams, and audio headsets). The USB hub is compact in size, facilitating portability when travelling.

Portable and rugged

If you're looking for portability, then this hub can help. Its compact and lightweight design makes it ideal for travel. Plus, with a built-in USB cable, you can tuck the versatile hub neatly into your travel bag.

With a rugged aluminum housing, the hub offers dependable protection, so it's perfect for back-and-forth trips from home to office. Plus, the compact USB hub takes up minimal space on a desk, so you can use it in hot-desk or BYOD (Bring Your Own Device) environments.

Save money and time

The easy-to-use hub is plug-and-play and hot-swap compatible, so you can install it quickly, with no additional drivers or software required. It includes a power adapter as well, so you can rest assured that you can connect virtually any USB 3.2 Gen 1 peripheral, even devices with high power requirements. Plus, you can also avoid the nuisance and cost of purchasing new devices by using the USB 3.2 5Gbps hub with your current USB 2.0 and 1.x devices.

Enhance Productivity and Device Management with the StarTech.com Connectivity Tools Application

Developed to improve performance and security, StarTech.com Connectivity Tools is the only software suite on the market that is compatible with a wide variety of IT connectivity accessories. The applicable software for this product is the USB Event Monitoring Utility. Use this utility to track and log any connected USB devices.
