Adjustable Dual Monitor Mount | Synced Height Adjustment | Easy-Grip Handle

This Dual Monitor Arm lets you mount two 17" to 32" VESA mount monitors, each weighing up to 17.6 lb. (8 kg), onto a single low-profile base. It gives you flexible desk-clamp or grommet-hole mounting, letting you save space while creating an ergonomic workspace in any office environment.

Free Up Desk Space

With a stable crossbar design, the adjustable height dual monitor stand lets you create more usable work space by mounting your monitors side by side on a single base.

Optimal Viewing

The computer screen stand features one-touch height adjustment. The smooth +/- 10° tilt motion and +/- 10° swivel of the individual monitors make it easy to find the optimal viewing angle. You can also rotate each display 360° for portrait or landscape viewing and laterally adjusted along the crossbar length.

Flexible Installation

The adjustable dual monitor mount is easy to install, with the desk-clamp or grommet mount (hardware included). Integrated cable management keeps your workspace organized. It works well with most desks, including sit-stand workstations.

The Choice of IT Pros Since 1985
