ESD Heel Strap,
Adjustable
Antistatic Heel
Grounder, Shoe
/ Foot Grounding
Point for Anti-
Static Floors,
1M Ω Resistor,
TAA-Compliant**

Model: ESD-HEEL-GROUNDER

Manufacturer: STARTECH

EAN: 065030925297

Product Code: 1418361

R725

**Protect sensitive electronics by discharging static
electricity while moving**

Protect sensitive electronics from electrostatic discharge during repairs, assembly, or equipment handling with this TAA-compliant ESD heel strap.

Consistent ESD Grounding

The heel grounder grounds the user safely, discharging static buildup before it can damage sensitive electronics. A built-in 1MΩ resistor limits current flow to reduce the risk of electric shock. The conductive ribbon (19.6in / 50cm) maintains skin contact, ensuring consistent grounding with the anti-static floor.

Note: For consistent grounding, both shoes should use a heel grounder.

Adjustable Fit

Hook-and-loop fastener fits most shoes up to 3.3in (8.5cm) wide, making it easy to standardize one heel grounder size across teams and workstations.

Workstation-Ready Design

Tetherless design allows for unrestricted movement within static-controlled environments. Lightweight and built for long-term use in labs, cleanrooms, and other areas where heel-to-floor grounding is required.
