The camera is equipped with a light sensor with a resolution of 2 megapixels, thanks to which it can record HD (720p) images at a rate of 30 frames per second. The lens is made of 4G hard glass. This makes it more resistant to scratches and damage. Automatic lighting adjustments and white balance ensure that the image is always of very good quality, even in low light. The 78-degree lens allows you to capture up to 2 people sitting in front of the camera, and video encoding protects your connection from unwanted third-party interference. Detects sound from a distance of 5 meters. Your partner will definitely hear you well. Convenient closing. It is complemented by a convenient clip, thanks to which you can easily place the camera on the screen frame. The 1.5 meter USB 2.0 cable connects the camera easily to a computer.
