

Zalman ZM-STC9 heat sink compound 9.1 W/m·K 4 g

Model: ZM-STC9

Manufacturer: ZALMAN

EAN: 8809213769450

Product Code: 1419002

R717

Highly effective thermal conductivity allows heat from CPU or any computer chips to cool down and very safe as there is no electrical conductivity. Scale markings on the syringe allow accurate and visual measurement of the content while using or reusing the product. Syringe-type is easy to use and rubber-cap prevents liquid content from being hardened over a period of time when reused.
