80PLUS STANDARD Power Supply (2021 MegaMax Renewal Version).

80PLUS 230V EU Standard Certified

The MegaMax guarantees stable performance and efficiency certified 80 PLUS Standard.

Characteristic of low temperature

It keeps the optimized temperature value in the 100% load.

Low ripple and noise

Ripple & Noise from MegaMax conforms to Intel Power Supply Design Guide.

Active PFC with up to 98% maximum power factor

By applying an active PFC (Power Factor Correction) circuit that maximizes energy efficiency, it ensures electromagnetic wave reduction and energy efficiency while preventing reverse current.

HBD (Hydro-Dynamic Bearing) Powerful and safe HDB bearing

Quiet and smooth operation with HDB bearings. Durability is improved and life expectancy is extended. It reduces noise and minimizes heat generation.

120mm Cooling Fan Low Noise and Powerful Cooling Performance

120mm low-noise fan delivers powerful spin even at low rpm to quickly remove heat from the power supply for optimum cooling performance.

High-quality, performance-oriented parts used to be durable and reliable

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

It provides a smooth power supply to the PC and reduces unnecessary power consumption by using quality parts that are durable and reliable.

Environmentally friendly products, all materials included are environmentally friendly and harmless. Certified products are environmentally friendly and do not cause any harm to the human body.

Certification is received when XRF testing determines that the 10 hazardous substances are below the standard value for the electronic products exported to Europe. Unlike other low-cost products, ZALMAN's products are manufactured with RoHS standards in mind from the start.

Specifications

Model: MegaMax [600W] ZM600-TXII 80PLUS STANDARD Power Supply

Efficiency: Max 86% @ 220 VAC, typical load

Dimensions: 140 (L) x 150 (W) x 86 (H) mm

MTBF: 100,000 hours

Weight: 1.68 kg

Operating temperature: 10 ~ 45 °C

PFC: Active PFC 98%

Regulation: KC, CE, CB, RoHS, EAC

Type: Intel ATX 12V Ver2.31

Protection: OPP / OVP / UVP / SCP

Input voltage: 200-240 VAC

Input Current: 5A

Input Frequency: 50-60 Hz

Fan Size: 120mm

Rated speed: 2,300 rpm

Fan Bearing: Hydro-dynamic Bearing

Cables (connector): Motherboard cable, CPU cable (connector 2EA), PCI Express cable (connector 2EA), SATA cable 2EA (connector 3EA), Peripheral IDE + Peripheral IDE (connector 2EA)

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
