R1,959

Achieve high-volume waves, or relaxed, beach-worthy waves with the Revamp Progloss 2-in-1 Beach & Volume Waver. Say goodbye to arm ache and awkward angles – this wonder waver is all about keeping it simple. Quick to heat up and easy to use, this device features curved plates that bring ionic and ceramic technology together – meaning your waves won't just stay in place, but they'll have a radiant shine too. Infused with Revamp's signature Progloss™ oils (a nourishing blend of keratin, argan and coconut oils), this waver will leave your hair soft and silky with a healthy glow. Suitable for all hair types, this styler was designed to suit you. Choose the temperature you want, and it will take care of the rest. With an auto shut-off feature that activates after 60 minutes of non-use and a heat resistant mat, this mane must-have makes your styling experience easier and more

enjoyable from start to finish.

Cut your 'getting ready' time down with the Revamp Progloss™ 2-in-1 Beach & Volume Waver and enjoy creating a dramatic, high-impact look or flowing, carefree waves- the choice is yours.

Hot Topic

Thanks to its quick heat-up time, this waver is ready to work almost instantly. With heat settings from 120° to 210°, this waver was created to give you full control of your styling session, whatever your hair type. If you've got finer hair, opt for a lower temperature to avoid unnecessary heat. If your hair is thicker or prone to frizz, try a higher heat for radiant results.

Making Waves

Sit back and enjoy seamless styling. All you need to do is section your hair, hold the waver in place and move down your lengths for flowing, flawless waves. With curved, ceramic plates and an ionic jet, this device promises beach-ready waves (without the windswept side effects) or big, bouncy waves depending on how you use it.
