Take your curl game to the next level with the Revamp iGEN Progloss™ Cordless Hollywood Curl Automatic Rotating Curler. Offering up to 40 minutes of curl time, this wireless wonder will give you bouncy barrel curls or tousled waves wherever you are. Simply leave it to charge on the accompanying pro charge stand (four hours for a full battery) and you're good to go. Like its curling counterparts, this automatic rotating curler lets you choose a temperature setting from 150°C to 210°C – meaning you'll only use the heat you need. The best part? It's kinder to your hair than more traditional heated hair appliances. Featuring advanced heat monitoring, this clever curler continuously monitors and regulates the temperature of your hair to prevent it from overheating. The lithium-ion battery ensures optimal performance, and the hybrid ionic/ceramic barrel promises sleek, frizz-free styles that say no to flyaways. Infused with Revamp's signature blend of keratin, argan and coconut oil, the barrel will leave your lengths with an undeniable shine and a soft-touch finish. Built with an LCD screen, this curler will display the remaining battery, so you're never left without charge – just remember to top it up when it shows a lower level. Manufacturer: Revamp | Maximum temperature (C°): 210 | Temperature range (T-T): 150 – 210°C | Light indicator: Yes | Automatic shutdown: Yes | Protection against overheating: Yes | Cross section diameter (mm): 19 | Surface coating: Ceramic | Swivel cord: No | Color: Black | Hair straightener: No | Plates for corrugation: No
