AI Vision Optimizer is an image scaling technology supported by artificial intelligence. The system features an optimized SMART platform based on VIDAA. It includes dual tuners for SAT and DVB-T2. The design is frameless and slim, powered by a powerful quad-core processor. It runs the latest HyperVision GPU software supporting advanced GPU capabilities. The TV offers a Game Mode for low latency performance and uses an IPS (In-Plane Switching) LED panel with 4K UHD resolution. It supports HDR 10 and Dolby Digital Plus 5.1 surround sound. HDMI ports support CEC and ARC for enhanced audio connectivity. Essential apps for movies, TV shows, and entertainment come pre-installed. Additionally, the device includes a Hotel Mode for professional or commercial use.
