

AMZCHEF 1501-BK-SM slow-running juicer (black)

Model: ZM1501-BK-SM

Manufacturer: AMZCHEF

EAN: 762763671865

Product Code: 1420414

R2,510

AMZCHEF 1501-BK-SM slow-running juicer (black).

Indulge in a daily serving of fresh, healthy juice with the AMZCHEF 1501-BK-SM slow speed juicer. Equipped with a 7-stage updated spiral and advanced cold-press technology, it delivers up to 90% yield from fruits and vegetables. Every sip is a maximum dose of vitamins and minerals, without unnecessary waste. Made of PMMA material, it guarantees not only excellent juice quality, but also the longevity of the device. Take care of your health and change your eating habits with the AMZCHEF juicer.

Innovative slow-speed technology

The AMZCHEF juicer presses juice at 80 revolutions per minute, which minimizes oxidation and ensures freshness. The process proceeds without the need for blades, eliminating oxidation

problems and allowing you to enjoy pure and nutrient-rich juice. The low-speed technology also produces a dry pulp, demonstrating the machine's high efficiency.

Safe and easy to use

The juicer is designed with the whole family in mind. It features a safe, narrow 4.5 cm diameter feed opening that prevents accidental injury to children during use. In addition, the intuitive mounting system and reverse function make it easy to use and prevent clogging, making every juice squeeze not only fun and easy to use, but also safe.

Easy to clean

The AMZCHEF juicer is synonymous with convenience - all it takes is one button to disassemble the machine and prepare it for cleaning. A special brush is included for easy cleaning of small parts. The practical strainer effectively separates the pulp from the juice, making it much easier to get a clean drink without unnecessary residue.

Quiet operation and smart safety features

With a motor running below 60 dB, you can squeeze juice even in the early morning without disturbing your household members. Built-in smart chips protect the device from overheating, ensuring long life and safe use for years. The use of 304 stainless steel, PMMA material and transparent housing ensures excellent durability of the equipment, makes it easy to monitor the squeezing process and gives you a feeling of complete control over the device.

Richness of flavor every day

With the AMZCHEF juicer, you can start every day with fresh juice, full of vitamins and minerals. The juicer offers functions such as cutting, breaking, squeezing, grinding, separating, crushing, extracting, so you can customize it to your needs. The advanced slow-speed technology ensures minimal oxidation and deeper flavor, while you enjoy richer nutritional value. Bring healthy habits into your life and discover the joy of making your own juices every day!
