Product Code: 1420711

R2,510

UTRAI JS4 Car Jump Starter

The UTRAI JS4 Car Jump Starter is a versatile tool that combines immense starting power with the functionality of a power bank and practical emergency solutions. It will easily start a car, motorcycle, or even a boat, while also keeping your mobile devices charged thanks to fast wired and wireless charging. The built-in LED flashlight with various modes ensures visibility after dark, and additional features, such as a compass and a safety hammer, give you a greater sense of control in any situation. It’s a tool that works well both in everyday life and in emergencies—whenever reliability and a quick response matter most.

Power that makes a difference

At the heart of the UTRAI JS4 is an impressive starting power with a peak current of 2,500 A, allowing this 14.8 V device to handle a wide range of vehicles. Whether you’re dealing with a passenger car, SUV, pickup truck, motorcycle, or even recreational equipment like a boat or snowmobile, you can count on a fast and effective engine start. This solution eliminates the stress of a dead battery and

provides tremendous support when your vehicle won’t start.

A power bank always at hand

The UTRAI JS4 does more than just start your vehicle—it also serves as a high-performance power bank with a capacity of 59.2 Wh. Equipped with two USB-A ports and a USB-C connector that serves as both an input and output (5V/3A), it allows you to charge multiple devices simultaneously, such as smartphones or tablets. Additionally, the 10 W wireless charger lets you conveniently recharge your devices without cables, exactly when you need it. This is a practical solution, especially when traveling, where access to power outlets can be limited.

Thoughtful design and full control

The built-in LCD screen provides quick access to key information about the device’s status, allowing you to better manage your power and be prepared for any situation. Smart jump leads enhance safety by protecting both the device and the vehicle from connection errors. The entire unit is designed for maximum convenience and intuitive operation, so using it requires no specialized knowledge.

Light and safety in every situation

The integrated LED flashlight with three modes (standard, SOS, and strobe) is useful both during nighttime breakdowns and in situations requiring signaling. It serves as both a light source and a safety feature on the road. Additional features, such as a compass and a safety hammer, make the UTRAI JS4 a useful tool in emergency situations as well, when quick action and access to basic rescue solutions are crucial.

Manufacturer	UTRAI
Model	JS4
Display type	Digital LED display
Peak current	2,500 A
Starting voltage	14.8 V / 16.6 V (4 cells)
Fast charging	Bidirectional fast charging
