Omada Software Defined Networking (SDN) platform integrates network devices including access points, switches and gateways, guaranteeing powerful business network with higher efficiency, higher security, and higher reliability.

Hassle-Free Centralized Cloud Management:
100% centralized cloud management of whole network from different sites—all controlled from a single interface anywhere, anytime.

Secure Guest Network with Facebook Wi-Fi and SMS Authentication

The captive portal helps maintain only authorized guests to use the network, presenting devices with a convenient, user-friendly authentication method to grant Wi-Fi access. The addition of SMS and Facebook authentication simplifies the captive portal even further to simplify connectivity and boost your business.

Multiple PoE Options for Easy Installation

EAP223 supports both 802.3af/at PoE and Passive PoE power supply, which can be either powered by a PoE switch or the PoE adapter, making deployment effortless and flexible.

Easy Management with the Omada App

Follow configuration instructions on the free Omada app to get set up in minutes. Omada lets you configure settings, monitor the network status and manage clients, all from the convenience of a smartphone or tablet.
