Its sleek slim bezel design complements any space while offering long-term reliability. Compatible with Neovo Controller Software, it enables effortless multi-display management, making it an ideal choice for digital signage, presentations, and promotional displays.

Sleek and Modern Slim Bezel Design

The VA4301 features an ultra-slim 1.5mm bezel, delivering a sleek and professional aesthetic that complements any setting. Its minimal frame maximises screen space to provide an immersive viewing experience, seamlessly integrating into retail, corporate, and public environments while maintaining a clean, contemporary look.

Stunning 4K Content Resolution

Enjoy exceptional clarity and lifelike detail with the VA4301’s 4K Ultra HD resolution, providing sharp, vibrant visuals ideal for impactful presentations and engaging digital signage.

Vibrant and Clear in Any Light

With a brightness of 350 nits, the display ensures clear and vivid images across a variety of environments — from shopping centres to lobbies, control rooms and beyond.

Consistent Image Performance at Every Angle

Thanks to its wide viewing angle panel, this monitor provides uniform colours and sharp detail from virtually any perspective — whether viewed from above, below, the front, or the side.

Patented ANTI-BURN-IN™ Technology

To address the issue of traditional LCD burn-in or ghosting, AG Neovo employs its patented Anti-Burn-in™ Technology , helping to prevent image retention and extend the lifespan of the display.

Integrated Dual Speakers

Equipped with dual 5W integrated speakers, the VA4301 delivers audio support for multimedia content.

Seamless Remote Management Across Devices

Neovo Controller simplifies display control with an intuitive interface, allowing effortless remote management across macOS and Windows platforms for a tailored and efficient user experience.

Centralised Control with Versatile Connectivity

Effortlessly integrate the display into your managed network using I/O commands, with USB, RS232, and three HDMI inputs providing seamless and flexible connectivity.
