TP-Link AC1200 Mesh Wi-Fi Range Extender

Model: RE300

Manufacturer: TP-LINK

EAN: 1210002613798

Product Code: 1423940

R1,281

Extend Dual Band Wi-Fi across Your Home

Keep the Whole Home Connected

RE300 wirelessly connects to your Wi-Fi router, strengthening and expanding its signal into areas it can’t reach on its own. With speeds of up to 300 Mbps on 2.4 GHz and 867 Mbps on 5 GHz, put strong, fast Wi-Fi in every room and say goodbye to dead zones.

TP-Link OneMesh

OneMesh is a simple way to form a Mesh network with a single Wi-Fi name for seamless whole-home coverage. Just connect a OneMesh range extender to a OneMesh router. No more searching around for a stable connection.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Enjoy a Mesh Network with Your Existing Router

Want a Mesh network? Hesitate on whether to replace your existing router and buy a Mesh set? TP-Link OneMesh resolves your dilemma.

High-Speed Dual Band Wi-Fi without Bandwidth Drop

Faster AC1200 Dual Band Wi-Fi

The RE300 lets you keep more devices connected simultaneously with its 2.4 GHz 300 Mbps and 5 GHz 867 Mbps dual bands.

Keeps Itself Fast

Adaptive Path Selection keeps your network running at top-speed by automatically choosing the fastest connection path to the router.

High Speed Mode

Use both Wi-Fi bands to establish one super-high-speed connection, ideal for HD streaming & gaming.

Secure One-Touch Connection for Easy Setup

Step 1: Simply press the WPS button on your router and, within 2 minutes, the WPS button on RE300 to connect to the network.

Step 2: Once connected, place RE300 to the best location—without reconfiguration.

Find the Best Location with the Smart Signal Indicator

The smart signal indicator lets you see signal strength from the existing router at a glance. Easily to find the best place to position your range extender to extend your Wi-Fi.

Feature-Rich App for Control in Your Hands
