NET VIDEO RECORDER 16CH/BLACK 70935 AJAX

Model: 70935

Manufacturer: AJAX

EAN: 4823114044120

Product Code: 1424332

R11,315

Guiding video to top-tier security

NVR brings the synergy of video surveillance and Ajax systems. Experience unparalleled system response speed, ensuring instant access to video archive, even on the go. Wide compatibility makes almost any IP camera integrated with intrusion protection and automation. NVR carries the legacy of a professional security system trusted by millions of users worldwide.

A device with no hidden agenda

All system data is securely stored within the European Union and is in full compliance with European data protection standards.Ajax NVR is NDAA-compliant, with every component sourced from manufacturers trusted and approved by the US government. It is versatile and can be installed in any location. Additionally, Ajax NVR has undergone independent cybersecurity tests to ensure its safety and reliability.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Customizable videowall for simultaneous monitoring

Integrate all your visual data in a streamlined interface. The Videowall tab combines the latest snippets from IP cameras and MotionCam series detectors, offering a comprehensive view of your space. Rearrange tiles according to your preference. The videowall is accessible on both mobile and desktop apps.

Smooth archive search

Effortlessly access the archive by clicking on an event in the notification log, instantly directing you to the precise camera recording at the event's timestamp. Everything is one click away with our advanced features

Rapid and encrypted data transfer

Ajax JetSparrow is the heart and brain of the Ajax video. It is responsible for all the video transmission, storage, and management.

We have developed JetSparrow — our proprietary video transmission technology to deliver an ultra-fast VMS experience. Thanks to this streaming technology, navigating through the local HDD archive feels as smooth as browsing cloud storage. As a result, browsing the archive becomes remarkably efficient, and the live view initiates without any delay.

Built-in motion detection

Optimize your video archive by setting up the pixel movement detection feature. Define specific zones to ensure recordings are triggered only when movement occurs in the selected area. This conserves HDD space and streamlines archive navigation.

Summary: Ajax NVR DC (16-ch). Video input channels: 16 channels, Audio formats supported: RTSP, Video formats supported: H.264, H.265. Maximum storage capacity: 16 TB, HDD interface: SATA, HDD size: 3.5". Ethernet LAN data rates: 10,100 Mbit/s. Brand compatibility: Ajax, Product colour: Black, Compatible products: Hub Hub Plus Hub 2 (2G) Hub 2 (4G) Hub 2 Plus Hub Hybrid (2G) Hub Hybrid (4G). Power consumption (max): 24 W, AC input voltage: 110 - 240 V, AC input frequency: 50/60 Hz | Vendor Homepage: https://ajax.systems/products/specs/nvr-16-ch-dc/ | Video input channels: 16 | Video motion detection: Yes | Audio formats supported: RTSP | Video formats supported: H.264/H.265 | HDD capacity: 0 | Number of HDDs supported: 1 | Maximum storage capacity: 16 | HDD interface: SATA | HDD size: 3.5 | Ethernet LAN (RJ-45) ports: 1 | Ethernet LAN data
