Indoor/Outdoor Design

The USW-Flex is designed for indoor or outdoor use. With its weatherproof housing and versatile mounting options, the USW-Flex provides both flexibility and durability for environments with extreme temperature variations

Compatible Products

The USW-Flex powers a variety of products, including the UniFi Video Camera G3 Flex, UniFi Video Camera G4 Pro, and UniFi AC Mesh AP, which use 802.3af PoE. To enable its maximum power budget of 46W, the USW-Flex can be powered by the USW-Industrial switch, which provides 60W of 802.3bt PoE++.

Seamless Integration

A single instance of the UniFi Controller running in the cloud can manage multiple UniFi sites within a centralized interface. Each site is logically separated and has its own network monitoring, configuration, maps, statistics, and admin accounts.
