Kasa Smart Thermostatic Radiator Valve Starter Kit.

Precise Temperature Control - Get the right temperature whenever you want it.

Schedule & Timer - Make sure it is as hot as you need with presets and schedules that suit your life.

Voice Control - Hands-free control that syncs with Amazon Alexa, Google Assistant, or Siri ShortCuts.

Frost Protection - Keep your pipes unfrozen and your house safe.

Ultra-Long Standby - Works with lot hub, promising longer battery life (over one year).

Up to 32 Radiators - Each hub can connect and manage up to 32 radiators.

Versatile Compatibility - Fits on most radiator valve body thread (M30x1.5) and the three adapters(RA, RAV & RAVL) included allow more compatibility.

Hub Included - Simply replace your old radiator valve with Kasa and get started right away.
