Axagon CLR-M2L3 Passive aluminum heatsink for all M.2 SSDs, size 2280, high 3 mm

Model: CLR-M2L3

Manufacturer: AXAGON

EAN: 8595247905536

Product Code: 1425703

R628

AXAGON CLR-M2L3 ALU passive heatsink for ideal cooling of high performance M.2 SSDs, especially NVMe.

The universal passive heatsink can be used for M.2 cards, size 22 x 80 mm. Two supplied thermally conductive pads allow cooler installation for all one-sided as well as double-sided M.2 SSD disks.

3mm high ribbed aluminum heatsink assists in a better dissipation of heat generated during the M.2 SSD operation. It also reduces the drive temperature by up to 15°C. This prolongs the M.2 SSD life and prevents disk slow down, so-called "Thermal Throttling".

Thanks to its easy installation and compact dimensions, the heatsink can be used not only with M.2
