Dreame Robot Vacuum Side Brush for X60 Series

Side Brush is made with durable PA66 bristles and a 45° angled design that easily sweeps dust and debris from edges and corners, improving overall cleaning coverage.

The angled bristles extend reach along walls and baseboards, guiding dirt, pet hair, and crumbs toward the main brush and suction inlet for efficient pickup.

This side brush features flexible yet durable bristles that reduce wear, maintain stable performance, and operate with low noise during cleaning.
