

StarTech.com 10m (33ft) USB 3.0 (5Gbps) Active Extension Cable - M/F

Model: USB3AAEXT10M

Manufacturer: STARTECH

EAN: 065030846318

Product Code: 1427879

R3,133

Extend the distance between a computer and a USB 3.2 Gen1 device by an additional 10 meters

The USB3AAEXT10M, 10-meter Active USB 3.2 Gen 1 Extension Cable, offers one USB type-A (male) connector and one USB type-A (female) connector, and provides an active extension of USB 3.2 Gen 1 devices of up to 10-meters (32.8-feet).

An all-in-one cable for overcoming distance restrictions as well as power source limitations; the active USB 3.2 Gen 1 extension cable incorporates bus-powered active circuitry to ensure performance beyond the length limits of standard USB cables. Up to 2 of these cables can be daisy-chained together, allowing the connection to be extended a total of 20-meters. If necessary, the USB device can be powered from a wall outlet using the Universal AC power adapter provided with the cable.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
