Model: NM-TC100BLACK

Manufacturer: NEOMOUNTS

EAN: 8717371445737

Product Code: 1429416

R1,216

The Neomounts NM-TC100BLACK thin client holder allows you to install a thin client computer to a monitor mount, pole or under the desk.

The thin client holder can be installed out of sight, directly to the VESA plate, behind the monitor. The NM-TC100BLACK includes VESA 50/75/100 hole pattern to simplify installation in combination with flat screens. By installing the thin client holder to the VESA plate, you can utilize the cable management of the desk mount and keep the workspace free of cables.

Additionally, the holder can be mounted to a Ø35 mm pole or to a desk. With this practical solution you do not only create a neat and clean workspace, but will also benefit the lifetime of your device due to the reduction intake of dust and dirt.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The NM-TC100BLACK can be easily adjusted in width and depth to fit most thin client PCs.
