Deliver up to 60W of power through the hub to your laptop by connecting your USB-C charger to the USB-C port.

Thunderbolt 3

Use the Thunderbolt 3 port to transfer data, deliver power, or extend your display in seconds.

Strong housing

Compact, lightweight design in space grey, with aluminium alloy housing.

Gigabit Ethernet Connectivity

Give your laptop an instant, reliable wired Gigabit connection.

Connect to Gigabit Ethernet and more devices

Instantly add a Gigabit Ethernet port, three USB 3.0 ports, and a USB-C port to your laptop simply by plugging the hub into any USB-C port.

Reliable, fast, Gigabit connectivity

Simply plug into your computer and enjoy Gigabit Ethernet, which allows you to transfer large files in seconds. Providing a reliable and fast network connection, perfect for network-intensive workloads.

Transfer Large Files in Second

Use the hub to quickly transfer files to your USB devices like phones, tablets, external hard drives, and flash drives, to your computer.

It has the latest USB 3.0 technology built in to make transfers of music, HD videos, entire photo albums, backups and other large files up to x10 faster than USB 2.0. You can connect older USB 2.0/1.1/1.0 devices as well as ones using the latest USB 3.0 technology.

Easy to use everywhere. No setup at all.

The space grey, strong aluminium alloy housing protects the high-quality chipset inside and makes

the hub ready for any situation, whether you're at home, the office, or travelling.

Plug and play convenience allows you to use the hub straight away and with any Mac, Windows or Linux computer with a USB-C port. There are no drivers to install, and there's no complicated software setup at all.

Send power through the hub.

With the Power Delivery feature, you can charge your laptop at the same time as connecting to your USB peripheral devices. Simply connect your USB-C charger to the hub's USB-C port to provide power through the hub and to your laptop.
